Carnegie Mellon Robotics Academy

Certificate of Achievement

Software Foundations (VEX EDR V5) Exam

is awarded to

J Andy Agan

The Software Foundations Micro-Certification focuses on concepts around software and programming in a robotics context. Recipients have demonstrated an understanding of the robotics engineering process through repeated planning, testing, and iteration of course projects, along with the ability to write and understand programs in VEX C++ in areas of basic movement, sensing, and program flow. This certification represents 36 professional development hours.

Earned on Jul 28, 2019
