Carnegie Mellon Robotics Academy

Certificate of Achievement

Electrical Foundations Professional Development Micro-Certification

is awarded to

Roselee Lauper

Electrical Foundations PD Course PD course includes 36 hours worth of hands-on activity that prepares teachers to teach concepts such as basic electricity, circuits, using multimeters to measure various parts of a circuit, voltage and current, and controlling signals. The culminating project is an e-panel consisting of components found in a typical robot.

Earned on Oct 23, 2021
